Mr. McKinley Will Not Take the Stump for Wild Scramble

Chicago, Sept. 11. Chairman Hanna was asked today what would be done about the petition now circulating among organized labor requesting McKinley and Bryan to meet in this city in joint

and Biyan to meet in this city in joint debate.

Mr. Hanna said: "Mr. McKinley is not going to take the stump. The Democrats would undoubtedly like very much to see him chasing over the country in a wild scramble for votes as Mr. Bryan has lasisted upon doing. Mr. McKinley will continue to conduct himself is as a man who appreciates the dignity and importance of the position he seeks. He will not let d himself to any catch-penny achems for the sake of ratisfying the curiow nor making himself taked about. The Mayor and Parliamentary Law.

Mayor Best is becoming a prof fic letter writer. Indeed he does so much in this line that he is getting careless. For instance in defending his somewhat unparliamentary took he says.

Now the editor of Thic While should know that a motion to adjourn, duly seconded, is always in order and without he motion to be decided to receive any power.

Exactly, but the Mayor declibed to recognize this well known principle of the City Government. A motion warm and parliamentary law at the last meeting of the City Government. A motion warm and calculations, the calculations of the content of the City Government. A motion warm has nake ties majority for the convenience of the dangy to the country to the convenience of the country to the convenience of the wickelness of the political methods of uncivilized satisfaction of the wickelness of the City Government. A motion warm and continued the motion to the board?
